

Dear Sirs,

After more than thirty years in the renewable energy industry, we have the pleasure to do business with Activity LLC. Their team is dedicated to provide services in wind resource assessment to the highest level.

Since our first contract in 2008, Activity LLC occupies the leading market share in Russia for the supply and installation of wind measurement equipment. Their reference list is the simple confirmation of that fact.

I truly value the relationship we have built and recommend Activity LLC and trust them in your resource assessment campaign.

Sincerely,

A handwritten signature in blue ink that reads "Greg Edman".

VP Global Sales,
RNRG Systems
