Bad Vilbel, 09 February 2016

To whom it concerns,

During the past five years our company has been working with "Activity" LLC on numerous different kinds of projects both as the customer and as the contractor, e.g. wind measurement campaigns, pre-feasibility and feasibility studies, due diligence of wind farm construction, etc.

We have evaluated wind measurement result reports provided by "Activity" LLC and we have performed data analysis from several met masts installed in different regions of Russia from Kamchatka to Kaliningrad by "Activity" LLC specialists. Basing on this experience we can confirm that company offers high quality services according to international standards (IEC, Measnet, etc.).

This fact could be confirmed by the list of agreements that Lahmeyer International signed with "Activity" LLC as the renewable energy expert in Russia and CIS region. We've always been satisfied by their work implemented according to the scope of work and on term.

We would recommend you to consider "Activity" LLC as a strong and reliable partner in the field of wind energy.

Sincerely,

LAHMEYER INTERNATIONAL GMBH

(Lars Lindner)
Head of Controlling Department

(Dr. Patric Kleineidam)
Head of Department Wind Energy
